

## NEHSA's History

NEHSA was founded in 1972 as a non-profit organization run by and for persons with disabilities who wanted to enjoy active and independent lives through participation in sports.

In 1994, we expanded our winter program to include ski instruction for developmentally disabled persons. Today our program's goals are to encourage positive attitudes, social opportunities and personal growth through the challenges that participation in outdoor sports and recreation offers. NEHSA has a full time winter program and now offers year round activities.
